The Edelens
Serving in Bible Translation

Dear friends,
Thank you for praying and
partnering faithfully with
us as we minister to the
Bayono people and help
other tribes here in Papua
who do not yet have God's
Word in their language.

Thank you for praying for Amau, who was deathly ill due to complications in childbirth. She has recovered to full health!

Bastian, who was also very ill. He is recovering but still needs your prayers. This is a great encouragement to his faith too.

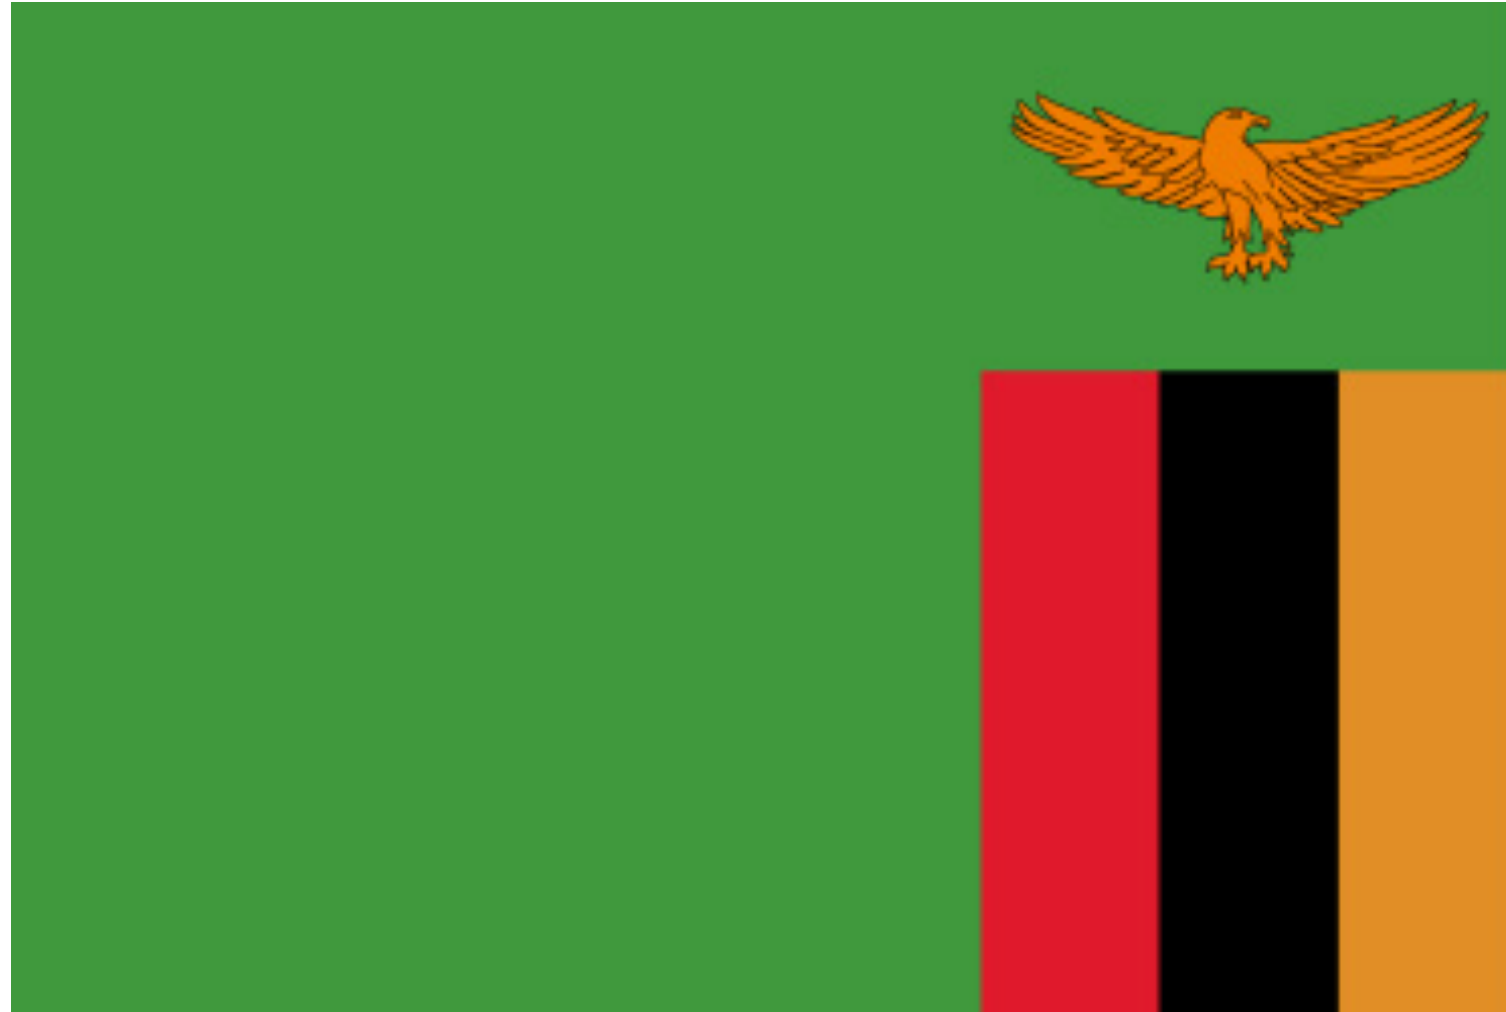

Oral Bible Story Translation For Oral Learners

**2021-2024 Program
to include these Bibleless languages:**

1. Oitai (Kaiy)
2. Jogwai (Eritai)
3. Kwerba-Mamberamo
4. Papasena
5. Biritai
6. **Bayono**

ZAMBIA
KATE FAHEY
MISSIONARY

I volunteered with them as a nurse, setting up a clinic for the children and employees. I also helped prepare them as schools opened back up in June. I continue to help them when medical needs arise with either the children or employees.

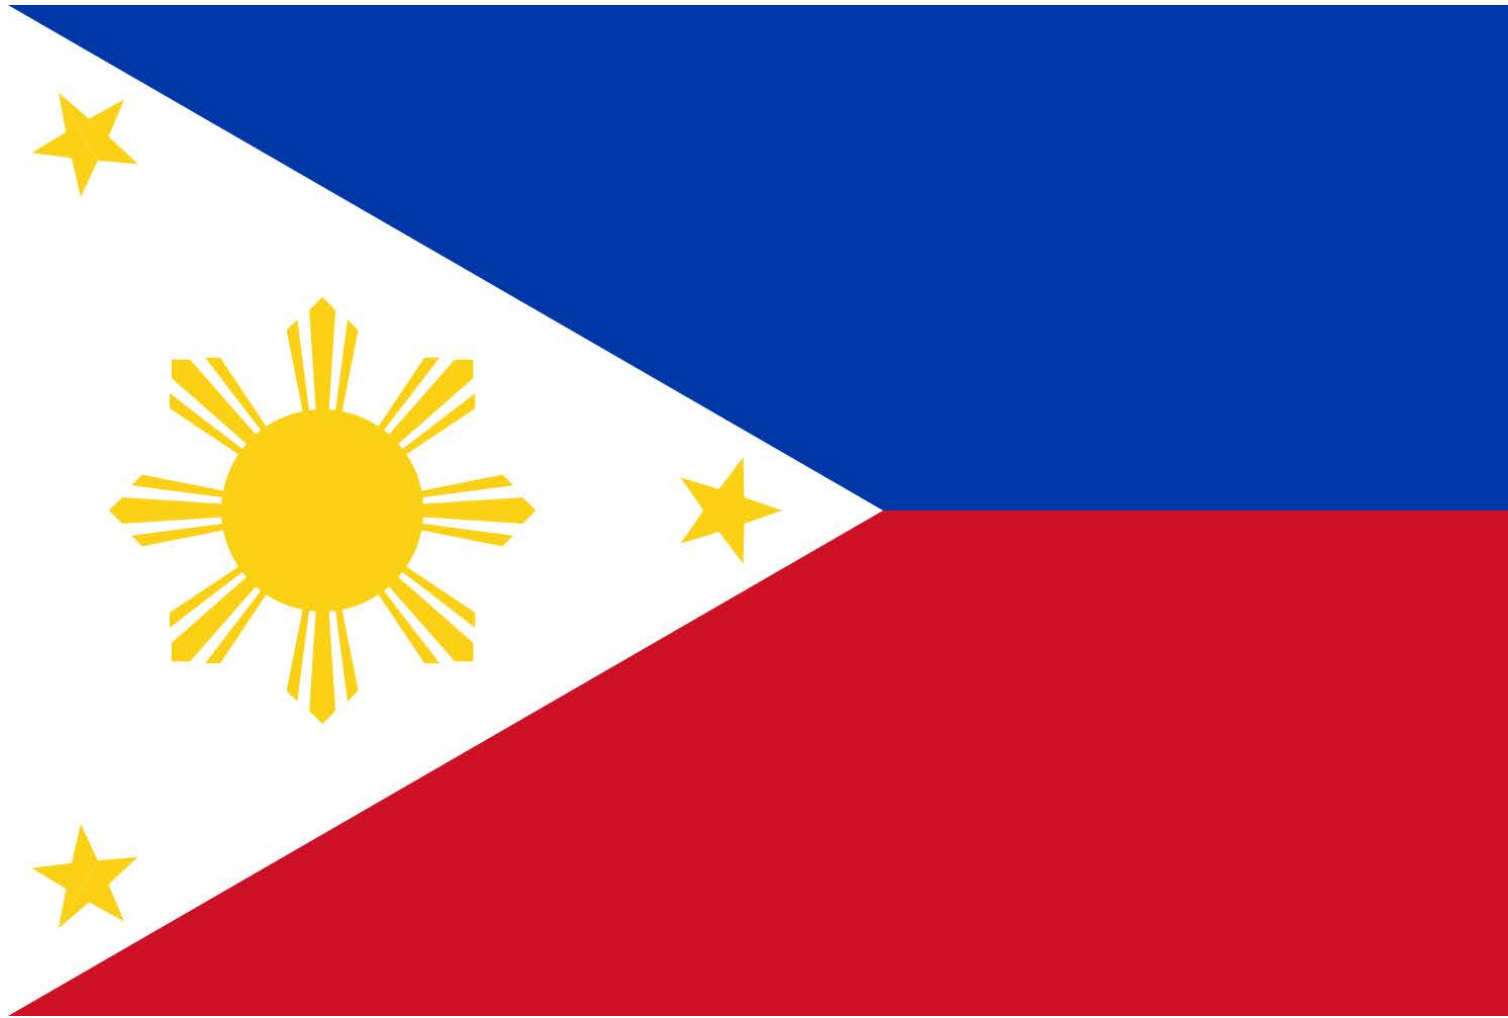

Back in September there was a fire at the school that caused damage to some of the classrooms. The classrooms have already been reconstructed and ready for the start of the new school year which will start on January 18th. I have also been able to help administratively with the school, not only in the finances and accounting but also with some HR. Before I returned home for the holidays we were able to hire a new headmaster. While here at home I have been helping with the process of hiring new teachers and drawing up employment contracts for the new hires.

On November 15th, I had the honor of baptizing 15 of the children ages 8 to 19. When I return to Zambia after the holiday I will continue with discipleship classes and start a new baptism class as there are many more interested in being baptized.

Upon my return to Zambia, we will be adding 2 locations in Kanyama and Kalingalinga. We have been offered a location at a church in Kalikiliki to have a resource center for the children in the community. This will be a place for the children to come after school for help with school work, discipleship, Bible study and even trauma counseling. We are currently looking for partners to help with the resource center and hope to have it open in a few months.

FAMILY

ECHO Asia Conference

We sat in classes and meetings for many different subjects including, Community development, growing micro greens, soil management, creating pectin from mango peels, seed harvesting and preservation, and so much more.

Medical mission to the Ati tribe

We had a great time helping serve the Ati tribe with a medical mission. The mission was organized by our friends at Advancing Native Missions (ANM). This was the missions organization of our friends that we worked with in 2001 and 2002, in our early years of missionary work. It brought us great joy to see and work with Dr. Linda Balugo again. We also got to witness the Ati tribes baptism and mass wedding.

This past month we had an amazing opportunity to share in a school about cyber safety and child sexual abuse. The school is located out in the provincial area outside the city. It is located in an area that is notorious for child sexual abuse. It is known for broadcasting child pornography on the internet. We were able to speak to over 300 students, teachers and parents. After the seminar so many parents were happy that we came to teach this. The students responded well to what was taught. The school has invited us to come back. We are so excited to grow this relationship. We know God will do great things.
